

CERTIFICATE IN ADVANCED SOFTWARE DEVELOPMENT

Certificate programs offer working professionals an opportunity to increase their knowledge and skills in the specific areas of information technology. A certificate representing proven academic performance is presented after the required coursework is completed with a GPA of 3.0/4.0. All courses may be later applied toward the Master of Information Technology and Management degree or the Master of Cyber Forensics and Security degree for those who apply and are accepted to the degree program. Applicants should have a bachelor's degree from an accredited college or university; the degree need not be in an information technology or a computer-related field. Prerequisites may be required for some courses in certificates; these prerequisites will not be applied to the certificate.

This program is designed for students seeking knowledge that will enhance their skills as a software developer.

Curriculum

Required Courses		(12)
ITMD 515	Advanced Software Programming	3
ITMM 571	Project Management for Information Technology Management ¹	3
Select a minimum of two courses from the following:		6
ITMD 511	Application Development Methodologies	3
ITMD 513	Open Source Programming	3
ITMD 519	Topics in Software Development	1-6
ITMD 532	UML-Based Software Development	3
ITMD 534	Human and Computer Interaction	3
