TECHNOLOGY (TECH)

TECH 565
Introduction to Social Commerce
Provides an introduction and basic knowledge of social commerce
to help students develop a practical understanding of the design,
construction, market readiness, and synergistic integration of a
business mobile application. The course will provide a practitioner
focus that will benefit students in a start-up or company/corporate
setting.
Lecture: 3 Lab: 0 Credits: 3

TECH 580
Topics in the Management of Technology
This course will cover a particular topic, varying from semester to
semester, in which there is particular student or staff interest. This
course may be taken more than once but only 9 hours of TECH 580
credit may be applied to a degree.
Credit: Variable

TECH 581
Consulting for Technical Professionals
This course explores the application of technology and technical
management skills to working with business, industry, or various
professions in solving specific problems for an organization as an
internal or external consultant. Students learn how to involve clients
in all phases of problem identification and solution with the goal
that, at the end of a consulting assignment, the clients are able
to sustain the necessary changes in their organization. Particular
attention is paid to managing expectations among change agents,
managers, executives, technical professionals, and other members
of the organization. The course will cover the most critical, high-
level, functional frameworks used by top consulting firms today as
well as the tools commonly used by consulting professionals.
Lecture: 3 Lab: 0 Credits: 3

TECH 597
Special Problems in Technology
Independent study and projects in applied technology that are multi/
cross-disciplinary not tied to a specific department.
