As the university's central library, Paul V. Galvin Library combines digital access with traditional library services. Galvin Library provides welcoming, safe, student-oriented spaces that accommodate both individual and collaborative learning including reservable group study rooms and spaces for students participating in interviews or video conferences. In addition to 3-D printing, Galvin Library facilitates the use of an electronic cutter and button makers for student and student group use. Laptops and Wi-Fi hotspots are available for check-out in addition to traditional library resources. Galvin Library's extensive collections of print materials are enhanced by virtual services that are provided 24 hours per day allowing seamless access to online databases as well as thousands of full text e-journals and e-books. Galvin Library also facilitates access to I-Share, a statewide resource sharing system of more than 90 academic libraries, and provides web-based delivery of materials via interlibrary loan. Galvin Library also manages an institutional repository, open to all Illinois Tech students. Librarians have expertise to support a broad range of subjects and majors and are available for online or in-person assistance. Students can make research appointments for one-on-one research help with a librarian who specializes in their area of study.

Graham Resource Center

Located in the heart of Crown Hall, the Graham Resource Center (GRC) offers space, collections, and services in support of the curricula and intellectual life of the College of Architecture. To keep services flexible and responsive to learners' needs, staff collaborate closely with faculty. To be a strong and reliable partner in research and education, the GRC is fully integrated into daily life at the College of Architecture.

In the past ten years, the GRC has expanded twice in order to accommodate growing use and collections. A wealth of subjects in architecture, from prehistory to the present, are encompassed by the collection of about 18,000 volumes in a variety of languages and formats. Modernist and contemporary architecture, landscape architecture, and urban design are primary focuses. Complementary disciplines such as construction, art, photography and film, engineering, and sustainability are also well-represented.

Two special research resources augment the GRC reference collections: works on Chicago's history, peoples, land, and architecture comprise the first, putting into context Chicago and its built environment; the second, our "Mies Collection," features a comprehensive Mies van der Rohe bibliography and study collection, as well as materials relating to the history of Illinois Tech's campus and faculty.

Center for the Study of Ethics in the Professions
