

MASTER OF DATA SCIENCE

Collaborative program with the Department of Applied Mathematics

This professional master's degree program consists of 33 credit hours of coursework including a six credit hour practicum project. The program is designed primarily for those with previous degrees or experience in computer science, statistics, mathematics, the natural or social sciences, or business, and who are interested in preparing for a career as a data science professional in business and industry. Full-time students may complete the program in one year, including one summer term.

Admission Requirements

Applicants should have a bachelor's degree from an accredited university with a minimum cumulative GPA of 3.0/4.0. A combined verbal and quantitative GRE examination score of at least 304 and an analytical writing score of at least 3.0 are required. The GRE requirement may be waived for students with a bachelor's degree from an accredited college or university in the United States with a cumulative GPA of at least 3.0/4.0.

Prerequisites include knowledge of a high level programming language at the level of CS 201 (object-oriented programming is required), a data structures and algorithms course at the level of CS 331, multivariate calculus at the level of MATH 251, linear algebra at the level of MATH 332, and probability and statistics at the level of MATH 474. Information on these courses is available in this bulletin. Proficiency and placement exams are also available.

Students with an insufficient background in computer science and/or mathematics will be required to take the relevant prerequisite courses and earn at least a "B" grade in each. These prerequisite courses do not count toward the 33 credit hour requirement.

Curriculum

Coursework includes 18 credit hours of required core courses, nine credit hours of elective courses, and six credit hours of CSP 572/MATH 572 Data Science Practicum. At least nine credit hours must be taken of 400- or 500-level CS or CSP courses and nine credit hours of 400- or 500-level MATH courses, not including the CSP 572/MATH 572 Data Science Practicum.

Up to six credit hours of 400-level undergraduate coursework may be used toward degree requirements.

Code	Title	Credit Hours
Data Science Core Courses		(18)
MATH 563 or MATH 564	Mathematical Statistics Applied Statistics	3
CS 584 or MATH 569	Machine Learning Statistical Learning	3
SCI 511 or CS 587	Project Management Software Project Management	3
SCI 522	Public Engagement Scientists	3
CSP/MATH 571	Data Preparation and Analysis	3
Select a minimum of one course from the following:		3
CS 525	Advanced Database Organization	3
CS 554	Data-Intensive Computing	3
CSP 554	Big Data Technologies	3
Data Science Capstone		(6)
CSP/MATH 572	Data Science Practicum (Summer only)	6
Data Science Electives		(9)
Select nine credit hours of Data Science Electives		9
Total Credit Hours		33

Data Science Electives

Code	Title	Credit Hours
Computational Fundamentals		(30)
CS 425	Database Organization	3
CS 430	Introduction to Algorithms	3
CS 450	Operating Systems	3
CS 520	Data Integration Warehousing	3
CS 525	Advanced Database Organization	3
CS 535	Dsgn and Anlys of Algorithms	3
CS 546	Parallel and Distributed Proc	3
CS 553	Cloud Computing	3
CS 589	Software Testing and Anlys	3
CSP 554	Big Data Technologies	3
Computer Science Applications		(33)
CS 422	Data Mining	3
CS 512	Computer Vision	3
CS 522	Advanced Data Mining	3
CS 529	Information Retrieval	3
CS 554	Data-Intensive Computing	3
CS 556	Cyber-Physical Sys: Lang & Sys	3
CS 557	Cyber-Physical Sys Sec/Dsgn	3
CS 579	Online Social Network Analysis	3
CS 583	Probabilistic Graphical Models	3
CS 584	Machine Learning	3
CS 585	Natural Language Processing	3
Mathematics, Probability, and Statistics		(48)
MATH 454	Graph Theory and Applications	3
MATH 481	Intro to Stochastic Processes	3
MATH 483	Design and Analysis of Exprmnt	3
MATH 486	Mathematical Modeling I	3
MATH 487	Mathematical Modeling II	3

MATH 522	Mathematical Modeling	3
MATH 532	Linear Algebra	3
MATH 535	Optimization I	3
MATH 540	Probability	3
MATH 542	Stochastic Processes	3
MATH 546	Introduction to Time Series	3
MATH 565	Monte Carlo Methods in Fin	3
MATH 566	Multivariate Analysis	3
MATH 567	Adv Design of Experiments	3

MATH 569	Statistical Learning	3
MATH 574	Bayesian Computational Stats	3
Mathematical and Scientific Computing		(15)
BIOL 550	Bioinformatics	3
MATH 577	Computational Mathematics I	3
MATH 578	Computational Mathematics II	3
MATH 590	Meshfree Methods	3
PHYS 440	Computational Physics	3
